

## Sky VR

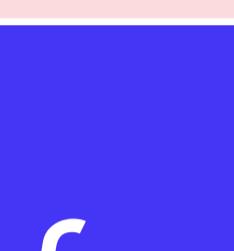

Practice languages in virtual reality

### Travel the world and learn new languages

Are you up for an adventure? Mondly VR is the first language learning experience with chatbot and speech recognition in the world. Try it now and discover the power of immersion.

### Video Clip

Practice real-life conversations in **30 languages**: English, Spanish, German, French, Italian, Portuguese, Russian, Dutch, Japanese, Chinese and many more.

### Build the confidence to speak foreign languages

#### Immersive

Experience the most advanced way to speak new languages without having to travel. Make friends in Barcelona, check into a hotel in Tokyo and order local food in a German restaurant.

#### Innovative

Step into a new, virtual world and practice conversations in realistic scenarios. Get instant feedback on your pronunciation in virtual reality and build the confidence to speak new languages in real life.

#### Fun & Easy-to-Use

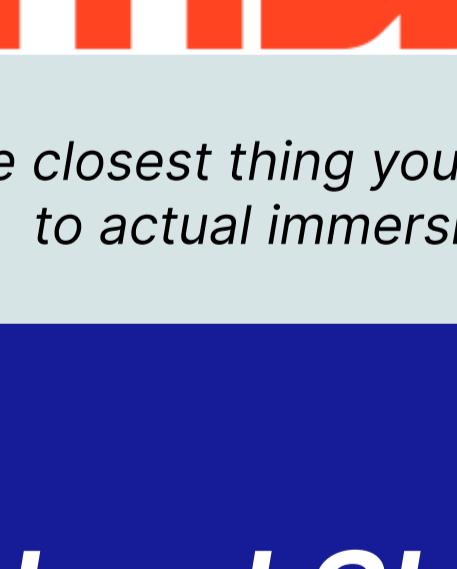

Explore new worlds and learn new languages from the comfort of your couch. Just put your headset on and enjoy the experience. You will never struggle for the right words ever again.
